

Don Hodges, of Specialized Office Systems is the only source we use for printing, artwork and mailing fulfillment. I have been working with Don now for over five (5) years, and he has not only saved us thousands of dollars, but has a "value added" element in that he really serves as our printing and art department consultant and advisor at the same time. Even if he did not save us money on the printing we would gladly pay him as a consultant and advisor on a fee basis for the valuable contribution he makes to our organization. Off hand, I am not sure how much we spend with his company each year, but it has to be over \$500,000, which we consider to be money well invested. The bottom-line is that Don and all the staff at SOS go the extra mile to make our business run as smoothly as possible.

Have a wonderful day,

Mel
